Trees Shrubs Roses and Perennials

from
THE CAPITAL NURSERY
G. J. BRAUN
1880 1915

Denver, Colo.

PREFACE

With thirty years' practical experience in and about Denver, which gave me a large amount of information as to the best adapted kinds and varieties of trees, shrubs and vines, I aim to send out only Colorado grown or thoroughly acclimated trees, shrubs, etc. It has been demonstrated plainly that there is a large quantity of all kinds of nursery stock shipped in from the East which are a failure, and, therefore, people intending to plant should take pains and only set out well tested, hardy kinds for this section. And, where people have time, it will be better to make their own selection right on the nursery grounds.

While I take the greatest care and pains in having the stock packed in the best possible known methods in order that the shipment reaches its destination in good condition, once delivered to the different transportation companies, our responsibility ceases, and therefore can not be liable for the delay during transit.

We charge only to cover cost of box and packing. Any claims for errors that arise must be made within five days of time of receiving goods.

Denver is a central shipping point, located on the Burlington, Union Pacific, Denver & Rio Grande, Atchison, Topeka & Santa Fe, Colorado & Southern and the Rock Island railroad companies. Ample express facilities for shipping are given by the Wells-Fargo, Adams, Globe and American Express Companies.

Telephone: South 2202.

LANDSCAPE DEPARTMENT.

We do extensive landscape work, such as laying out pleasure and ornamental grounds, seeding and sodding surrounding the new homes.

We have the best talent for drawing plans for the different landscape styles.

Parties living out of the city who are building a new home and contemplating having an ornamental garden and lawn laid out artistically, are requested to send us dimensions and lay of ground, and we are prepared to draw a plan at a reasonable price.

LOCATION OF GROUNDS.

This place is located on South York and Bayaud, on the extreme southeast end of Country Club and adjoining same. Take Fourth Avenue car at Central Loop, get off at Third and York, walk south across bridge where I have ten acres devoted to nursery purposes.

G. J. BRAUN

Telephone South 2202

FRUIT DEPARTMENT

APPLES.

With the great number of varieties of apples which are listed throughout the country—and no doubt the most fastidious planter can select his favorite kinds—in this vicinity we must confine ourselves to the kinds which have proven hardy and a success, and the hardy varieties are rather limited. The Northwestern Greening is one of the very best sorts for the eastern slope of the Rocky Mountains.

I would be pleased to correspond with parties who intend to plant an orchard, as I am prepared to make the apple grafts and to grow on contract from one to fifty thousand first class trees, either one or two years old.

Yellow Siberian		
Price, 5 to 7 feet	.50	4 50

CHERRIES.

The cherry is a fruit which we can brag of, as it seems the elements are very congenial to make everything produce certain varieties of cherries in abundance in this vicinity; while the sweet variety is not a success, the tart cherry takes its place.

Early Richmond. Red fruit and early bearer, ripening at end of June; free and hardy grower.

English Morello. Fine large dark red cherry; free bearer, ripening in August; trees somewhat more dwarf than other kinds.

	Each	Dozen	100
Montmorency. Fruit large bright red, ripening in July; an immense yielder, and considered one of the best varieties for this section.			
Ostheim. An exceedingly hardy variety originating from Russia; fruit large and liver color, ripening middle of July.			
5 to 6 feet trees	\$0.75	\$6.00	\$40.00
3 to 4 feet trees	.50	4.25	30.00

PLUMS.

De Soto. Very hardy variety; trees of medium growth; come to bearing quite young; fruit good size and quality; color a rich golden yellow.

Damson. One of the most prolific varieties; fruit medium size, round and rich blue, and frequently called the commercial plum.

Forest Garden. A strong-grown, hardy tree, profuse bearer, fruit good size, nearly round, mottled red and yellow, fruit rich and sweet.

Bradshaw. Growth rather erect and vigorous; fruit very large and attractive, of a rich purple and red.

German Prune. Robust grower, fruit large and dark purple.

Lombard. Tree vigorous and good bearer; fruit oval, violet red, changing to purple.

Wolf. Large, dark red, fine quality and very good for cooking.

Wyant. A rich dark blue color, medium size and excellent flavor.

Yellow Egg. Very large and of choice yellow; also a good cooking plum.

SHADE TREES A SPECIALTY

We devote a great deal of time, labor and care to have a home-grown or thoroughly acclimated shade and ornamental tree, and grow them in large quantities. We have large shade trees which are transplanted at least three times in our nursery, and whose trunks measure six inches in diameter, but which we can handle as successfully as a three-inch tree.

In Denver and vicinity large trees are wanted for immediate effect. New homes are going up continuously, and the average home-maker does not want to pioneer it. The transplanting of trees in the nursery rows naturally gives them more fibrous roots, and they can be more successfully transplanted to private grounds and start a vigorous growth at once, for the roots are the foundation of the tree.

	Each	Dozen
Acer Dasycarpum (Silver Maple)		
1¼ to 1½ inches, 8 to 10 feet	\$0.75	\$ 8.00
10 to 12 feet	1 50	15.00
2 inches	\$2.00 to 2.50	\$21-\$24
3 inches, 12 to 15 feet	3.50	40.00
Have a limited number of select 3 times transplanted, 5 to 6 inch maple. Price on application.		
Acer Dasycarpum, Weirii (Weir's Cut-leaved Maple)		
8 to 10 feet	1.00	10.00

4 to 5 feet	75c to 1.00	

	Each	Dozen
Coluthea arborescens (Bladder Sena). Flower color of old-fashioned Wall Flower. 3 to 4 feet	\$0.75	
Cornus Siberica (Red-branched Dogwood) 4 to 5 feet	1.00	10.50
Cornus Stolenifera lutea 2 to 3 feet	.50	
Cornus Stolenifera lutea (Yellow-stemmed Dogwood) 2 to 3 feet	.50	
4 to 5 feet (extra strong)	1.00	10.00
Chionanthus Virginica (better known as White Fringe). A very handsome flowering shrub. 2 to 3 feet	.75	
Corylus (the American Hazelnut Bush) 3 to 4 feet	.75	
Cydonia Japonica (better known as Japan Quince). A very attractive bright red flowering early shrub. 2 to 3 feet	.50	4.50
4 to 5 feet	1.00	9.00
Desmodium penduliflorum . Late August and September flowering. See under Perennials. 2 to 3 feet	.35	
Forsythea (the Golden Belle). Fortunei 2 to 3 feet	.50	5.00
3 to 5 feet	75c to 1.00	10.00
Forsythea suspensa (Drooping Golden Belle) 2 to 3 feet, large size	.50	5.00
4 to 5 feet	75c to 1.00	9.00
Forsythea viridissima (the dark green) 2 to 3 feet	35c to .50	3.50
4 to 5 feet (select)	75c to 1.00	
Hippophaea rhamnoides (Buckthorn) 2 to 3 feet	50c to .75	
Legustrum , better known as Privet or Hedge Plant; amongst the many varieties the Ibota and Vulgaries are the best adapted to this climate, being perfectly hardy.		
	Each	100
Legustrum Ibota 18 to 24 inches	\$0.20	\$12.50
3 to 4 feet, large size, for immediate effect	.25	20.00
Legustrum Vulgaries 18 to 24 inches	.15	12.50
4 to 5 feet, extra large	50c to .75	
	Each	Dozen
Legustrum Amur River 18 to 24 inches	.15	1.50
Lonicera Tartarica , the upright tartarian bush Honeysuckle. Pink and white flowering; exceedingly hardy and vigorous grower 3 to 4 feet	.50	5.00
4 to 6 feet (extra large)	\$1.00 to 2.00	
Lonicera Morrowii (Japanese Bush Honeysuckle) 2 to 3 feet	.50	5.00
3 to 4 feet	.75	7.50
Laburnum vulgaris (better known as the Golden Chain). One of the most attractive shrubs in cultivation, with its beautiful golden colored flowers. 2 to 3 feet	.75	
3 to 4 feet	1.00	

	Each	Dozen
Lycium Sinensis (Chinese Matrimony Vine). Habit of growth half way bushy, and vine will thrive well on a hot, dry place.		
2 to 3 feet	\$.25	\$2.50
3 to 5 feet	.50	5.00
Lilacs. So well known that it will not require further description.		
Purple, 2 to 3 feet	35c to .50	\$3-\$5
Purple, 3 to 5 feet	1.00	10.00
Extra large clumps, well familiar, 5 to 7 feet		
	\$2.00 to 5.00	
White Flowering, 2 to 3 feet	.50	5.00
White Flowering, 3 to 5 feet	75c to 1.00	11.00
Extra large clumps, many stems, 5 to 7 feet.	\$3 to 6.00	
Persian Pink, late flowering, 2 to 3 feet	35c to .50	5.00
Persian Pink, late flowering, 3 to 4 feet	75c to 1.00	9.00
Philadelphus Syringa, or Mock Orange. A profuse, large white flowering and very fragrant. No lawn should be without this handsome and popular bush.		
2 to 3 feet	35c to .50	\$3-\$5
3 to 5 feet	75c to 1.00	7.00
5 to 7 feet, extra large size with many stems	\$3.00 to 5.00	
Prunus triloba (Double-flowering Plum)		
2 to 3 feet	.50	
4 to 5 feet	1.00	
Rhodotypus Kerriodes. White Kerria, free flowering, and rather dwarfed habit of growth		
2 to 3 feet	35c to .50	3.00

Spirea Van Houttii, Bridal Wreath

Spireas, in many varieties, and one of the most popular free-flowering, hardy and graceful shrubs.

Spirea Anthony Waterer will not grow over 2 to 3 feet high, and a mass of pink flowers from June to August. ✓

1½ to 2 feet	35c to .50	5.00
2 to 2½ feet	.75	

	Each	Dozen
Spirea arguta		
24 to 30 inches	.50	5.00
3 to 4 feet	75c to 1.00	10.50
Spirea billardi		
2 to 3 feet	35c to .50	5.00
4 to 5 feet	75c to 1.00	
Spirea callosa alba (dwarf)		
1½ to 2 feet	.50	
Spirea Froebeli		
3 to 4 feet	.75	
Spirea opulifolia (Golden-leafed Spirea). The golden colored foliage makes a pretty contrast amongst other shrubs.		
2 to 3 feet	35c to .50	
4 to 5 feet	75c to 1.00	
Spirea Douglassi (The Douglas Spirea). Rose-colored, summer-flowering, with a pretty silvery-gray foliage.		
2 to 3 feet	35c to .50	4.00
Spirea Bethlehemensis rubra (Bethlehem Spirea). Summer-flowering, very pretty, and only of recent introduction.		
2 to 3 feet	.50	5.50
Spirea prunifolia , early white double-flowering. Keeps its dark green foliage remarkably well during the hot summer months.		
2 to 3 feet	35c to .50	5.00
4 to 5 feet	1.00	11.00
Spirea Reevesii , early white-flowering; one of the old standard varieties.		
2½ to 3 feet	35c to .50	4.50
4 to 5 feet	1.00	9.00
Spirea Thunbergii , a very early white-flowering, with rather slender and graceful stems and leaves.		
2 to 3 feet	.50	5.00
Spirea Van Houttei , better known as Bridal Wreath, so well known that it needs no further description.		
2½ to 3 feet	35c to .50	\$4-5.00
3 to 5 feet	1.00	10.50
Extra large clumps, with many stems, 5 to 6 feet	\$2.00 to 4.00	
Ribes aurea , yellow flowering currant; very hardy and vigorous grower, and very desirable to intermingle in grouping shrubs.		
2 to 3 feet	.25	2.50
3 to 4 feet	.50	5.00
Viburnum Opulus Sterillis (better known as Snowball Shrub)		
2 to 3 feet	35c to .50	5.00
3 to 5 feet	1.00	11.00
Large sized clumps, many stems, 5 to 7 feet	\$2.00 to 5.00	
Syphoricaspus Racemosus (Snowberry)		
2 to 3 feet	.35	3.00
Tamarax African , bright red stemmed; a very pretty, graceful, pink-flowering shrub; blooms July and August.		
2 to 3 feet	35c to .50	5.00
3 to 5 feet	75c to 1.00	10.50

	Each	Dozen
Tamarax Odessa , dark red stemmed. 2 to 3 feet	\$0.50	
Weigelia Rosea , a very attractive June-flowering shrub. Rose pink. 2 to 3 feet	.50	
5 to 7 feet, extra large size	\$2.50 to 4.00	
Rhus Glabra (ordinary Sumach) 2 to 3 feet	35c to .50	
Rhus Tiphina 4 to 5 feet	50c to .75	
Laciania (Staghorn). Sumach, with its highly fringed foliage and of graceful growth. 3 to 4 feet	.50	5.00
5 to 6 feet	1.00	9.00
Rhus cotinus , smoke or purple fringe. 2 to 3 feet	.50	
4 to 5 feet	1.00	

VINES AND CLIMBERS.

Bignonia Radicans (Trumpet Vine), with its showy, large red trumpet-shaped flowers	35c to \$0.50	
Aristolochia Sipho (Dutchman's Pipe), with its large, emerald-green foliage, makes a very desirable climb- ing vine for porches, arbors, trellises, etc., etc.	75c to \$1.00	
Celastrus Scandens (better known as Bitter Sweet). One of the very hardiest vines in cultivation	25c to .50	
Ampelopsis Muralis . The only hardy, self-clinging Ivy in the vicinity of Denver; once established, will make 12 feet of growth in a season. With its ten- drils, which nature has so skilfully provided, it fast- ens itself to any kind of wall permanently, and will thrive either on the north or south side of a building. In course of time it will climb on top of the highest building, 100 feet or more	.50	\$5.00
Ampelopsis Englemanni . Very hardy and fast growing and pretty vine, well suited to cover unsightly buildings, barns, arbors, or to cover a dead tree	.25	2.50
Ampelopsis Veitchii (better known as Boston Ivy). Very pretty and self-clinging, but will thrive only on the north side of a building, and during my thirty years here in Denver has proven only a fair success. Price	25c to .50	
With the number of flowering vines to choose from, nothing can surpass the large flowering type of Clematis, with its three distinct colors, the Red, White and Blue.		
Clematis Jackmanii . A strong-grown profuse bloomer, and with its large royal purple flowers is very at- tractive. 2-year strong plants	.75	8.00
Clematis Henryi . A pure white large-flowering variety, good form and recognized as one of the best single white. 2-year strong plants	.75	8.00
Clematis Montana Rubra . Excellent bloomer of a Choco- late Red. Strong 2-year old	.75	8.00
Clematis Coccinea . Medium size, bell-shaped flowers of bright vermilion red, with yellow center	.50	

	Each	Dozen
Lonicera Honeysuckle. Most likely one of the best known, very hardy, old-fashioned vines, of easy cultivation, profuse bloomer, with clusters of sweet-scented flowers of various colors.		
Lonicera Halleana. Hall monthly fragrant Japanese Honeysuckle. Foliage frequently keeps green until last of December. Flowers white, turning to a pale yellow, and highly sweet-scented. Price	\$0.35	\$3.00
Large 3-year-old plants	.50	5.00
Lonicera Sempervirens (Flava Golden or Yellow Trumpet; also known as the Yellow Coral Honeysuckle) Price	.35	3.00
Large 3-year-old plants	.50	5.00
Lonicera Semp. Rubrum (Scarlet Trumpet, or called The Red Coral Honeysuckle). Blooming all summer and exceedingly hardy, bearing clusters of coral red berries clear into midwinter. Price same as the others.		
Lyceum Sinensis (Chinese Matrimony Vine). Very hardy, fast-growing vine. Will thrive on an exceedingly hot, dry southern exposure, where every other vine fails to grow. Price	.25	2.50
Polygonum Baldschuanicum. Only a recent introduction and quite a desirable addition to the climbers. Apt to produce 8 to 10 feet of growth in one season. Every terminal twig produces a white, foamy flower	.50	
Pireploca gracea. Silk vine, with a pretty dark green glossy shining foliage. Price	.50	
Wisteria Chinensis. Rapid grower, with profusion of large bunches of purple flowers during June and July. Price, strong 2-year plants	.50	5.00

ROSES.

The Hardy Hybrid Perpetual of Standard Varieties.

We aim to handle roses strictly on their own roots only.

	Each	Dozen
American Beauty		
Francoit Levet		
Gen. Jaqueminot		
John Hopper		
Jules Morgottin		
Magna Charta		
Mad. Gabriel Luizet		
Mad. Plantier		
Marshall P. Wilder

Strong 2-year-old plants	.35	3.50

EVERGREENS.

Colorado is famed for its gorgeous native evergreen. They have a wide reputation and deserve a better place than they usually receive. Not only a permanent and highly ornamental tree for the lawn and parks, but are well fitted on the farm and orchard for protection and wind-breaks. They are easily made to grow if properly handled. Everything is simple by knowing how. The only successful way to handle, dig, move and transplant them is with a ball of earth well sacked, so the tree has the original earth on which it subsisted. We frequently move Spruce trees from 12 to 18 feet high just as successfully as we move a 4-foot tree.

The Engleman Spruce (*Picea Englemanii*)

Douglas Spruce (also called Red Spruce)

Pseudotsuga Douglasii

Silver or Blue Spruce (*Picea pungens*)

	Each	Dozen
1 ft. in height	75c to \$1.00	\$9.00
2 ft. in height	2.00	20.00
3 ft. in height	3.00	32.00
4 ft. in height	4.00	44.00
5 ft. in height	5.00	55.00

The rugged Pine is equally as ornamental as the Spruce, and in many instances more conspicuous. The above are all strictly nursery-grown.

THE PINE.

Pinus Flexilis (Rocky Mountain White or Limber Pine)

	Each	Dozen
1 ft. high	75c to \$1.00	
2 ft. high	2.00	
3 ft. high	3.00	

Pinus Ponderosa (Native Bull Pine)

2 ft. high	2.00
3 ft. high	3.00

	Each	Dozen
Pinus Sylvestris (The Scotch Pine)		
2 ft. high	\$2.00	
3 ft. high	3.00	
4 ft. high	4.00	
All strictly nursery-grown.		

Juniperus (better known as Cedar), with its slender, graceful, symmetrical cone-shaped habit of growth, is unique on the lawn or parks, and especially well adapted on the front lawn, where the space is rather limited. Keeps its silvery green foliage well during the winter months.

About 1 foot in height	75c to \$1.00	\$9.00
About 2 feet in height	2.00	22.00
About 3 feet in height	3.00	
About 4 feet in height	4.00	

The above quotations apply only on strictly nursery-grown.

PLANTS

RHUBARB.

In three varieties.

	Each	Dozen	100
Lineus			
Wine Plant			
Strawberry	\$0.15	\$1.50	\$8.00

ASPARAGUS.

The two best known varieties are:

**Connover's Colossal
Palmatta**

	Dozen	100	1,000
Strong 2-year-old plants	\$0.50	\$1.50	\$7.00

HERBACEOUS OR PERENNIAL PLANTS.

For the Everlasting Garden.

	Each	Dozen
Agnelegia coerulea (the native Columbine). Most popular flower of all, as it is the State Flower	\$0.15	\$1.50
Asters in different colors	.10	1.00
Dicentra spectabilis (Bleeding Heart)	.20	2.00

	Each	Dozen
Delphinium Formosum (Perennial Larkspur). Flower rich indigo blue	\$0.20	\$2.00
Desmodium Penduliflorum	.50	
Boltonia asteroides. False camomile; is a good white grower 4 to 5 feet high	.10	1.00
Golden Glow, Rudbeckia, the Black-eyed Susan	.10	1.00

Shasta Daisy, the Alaskan improved Daisy, large white flowers 3 to 4 inches in diameter, June till fall	.15	1.50
Large clumps	.25	2.50
Physostegia, velvety pink flowers, 3 to 4 feet high.		
Tarragan, one of the finest spice plants in cultivation. used by all chefs for flavoring salads and meats, etc.	.20	2.00

IMPORTANT REASONS FOR GROWERS NOT GUARANTEEING TREES, SHRUBS AND PLANTS.

This matter comes up occasionally, and the purchaser wants to know why we do not guarantee stock. We make the following answer, the reasonableness of which is easily seen:

To guarantee live trees, plants and shrubs, in possession of amateurs or professionals, is to hold the dealer responsible, not only for the errors and mistakes of others, but also for the conditions of the elements, which frequently are unfavorable and hard to combat.

Many times customers do not choose proper location, and conditions are such that the grower can be in no way responsible for the results.

Often customers will delay ordering their stock in the Spring until it is too late, and there is a bare chance for the plant to become thoroughly rooted before hot, dry weather.

Almost any reliable firm is willing to make good any stock which is dead on arrival, but it would be unreasonable to expect it to be responsible for the future welfare of live trees after they have been accepted by the purchaser.

G. R. BRAUN.

No. 8.

CERTIFICATE OF NURSERY INSPECTION

**OFFICE OF STATE ENTOMOLOGIST
COLORADO STATE AGRICULTURAL COLLEGE**

Fort Collins, Colorado, September 8, 1914.

THIS IS TO CERTIFY that, in accordance with Section Four of the Session Laws of 1907, the growing nursery stock on the grounds of the

**G. J. BRAUN NURSERY
of Denver, Colorado,**

was inspected on August 31, 1914, by Geo. M. List, a duly authorized inspector from this office, and was found to be apparently free from all insect pests and plant diseases that are likely to be disseminated to the injury of purchasers.

This Certificate is invalid after August 15, 1915.

**C. P. GILLETTE,
State Entomologist.**
